

# Semi Automatic Microtome

The semi-automatic precision microtome LM-CUT-SA is designed for all applications in routine, research or industry. Years of experience and customer input have contributed to create one of the best semi-automatic microtomes available.

The LM-CUT-SA combines highest precision with user friendliness as well as best comfort. Like all LuxMed® microtomes, the LM-CUT-SA comes with a complete set of standard components which can be individually adapted to customer's needs, ready to be used out of the box.
