

Crash Cart Trolley

LuxMed® Crash Cart Trolley is a premium emergency medical Cart designed for rapid response during critical situations such as cardiac arrest, trauma care, and emergency resuscitation. Engineered with a robust stainless-steel structure, smooth mobility, and organized storage compartments, this trolley ensures that healthcare professionals have immediate access to essential life-saving equipment, medications, and emergency supplies.

Designed for hospitals, ICUs, emergency departments, operation theatres, and healthcare facilities, the LuxMed® Crash Cart Trolley combines durability, functionality, and efficiency to support fast and effective patient care when every second matters.

Key Features

- Heavy-duty stainless-steel construction for durability and hygiene
- Six lockable drawers for organized storage of emergency medications and supplies.
- Integrated oxygen cylinder holder for uninterrupted respiratory support
- Adjustable IV pole for fluid administration during emergencies
- Defibrillator platform for quick access to cardiac resuscitation equipment
- Smooth-rolling swivel castor wheels with brakes for easy mobility and stability.
- Color-coded storage bins for efficient organization of medical consumables
- Ergonomic push handle for effortless maneuverability

Crash Cart Trolley

- Easy-to-clean and disinfect surface suitable for healthcare environments
- Tamper-evident locking system for enhanced security and inventory control
