

Closed Medical Trolley

LuxMed[®] Closed Medical Trolley is a premium-grade stainless steel storage solution designed for hospitals, clinics, laboratories, operation theatres, and healthcare facilities. Manufactured from high-quality stainless steel, this trolley provides a hygienic, corrosion-resistant, and durable storage system for medical supplies, instruments, consumables, and equipment.

Featuring a spacious enclosed cabinet with smooth-opening double doors, heavy-duty castor wheels, and a robust construction, the trolley ensures secure storage and effortless mobility. Its seamless design makes cleaning and disinfection easy, helping healthcare facilities maintain the highest standards of hygiene and infection control.
