

Semi Fowler Bed

LuxMed[®] Semi Fowler Bed is a reliable and durable patient care solution designed for hospitals, clinics, nursing homes, healthcare centers, and home care environments. Engineered to provide superior comfort and support, this bed is ideal for patient recovery, long-term care, post-operative treatment, and general hospitalization.

Manufactured from high-quality mild steel and finished with a premium epoxy powder coating, the LuxMed[®] Semi Fowler Bed offers exceptional strength, corrosion resistance, and long service life. The smooth manual crank mechanism allows effortless adjustment of the backrest, enabling patients to achieve a comfortable semi-fowler position for resting, eating, reading, or receiving medical treatment.

The bed features a sturdy frame construction, ergonomic safety side rails, and an IV stand provision to enhance patient safety and caregiver convenience. Designed in accordance with modern healthcare standards, the LuxMed[®] Semi Fowler Bed delivers optimal patient comfort, efficient caregiving, and cost-effective healthcare solutions for a wide range of medical facilities.
