

Histology Equipments Controller - Design and Manufacturing

Microtome / CryoStat Controller

Complete Manufacturing Kit

Microtome / Cryostat
Controller

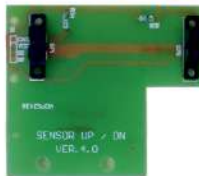

L:135mm x W:100mm

**Opto Sensor
Back / Forward**

**Opto Sensor
UP / Down**

**24V / 5Amp
Power Supply**

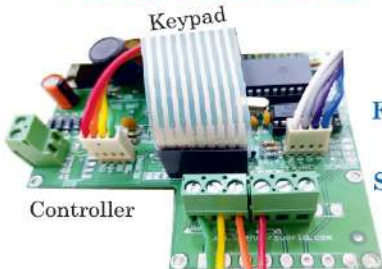

**Rolled Ball
Nut**

**Rolled Ball
Screw
500mm**

Coupling

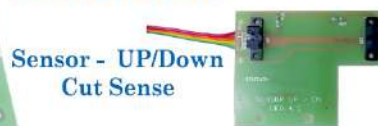

Wiring and Color Code

Controller

**Sensor-
Forward / Reverse**

**Sensor - UP/Down
Cut Sense**

Switch Setting

- The LUXMED® - principle reduces injury through a knife guard which locks when in position.
- Microtome lock conveniently integrated into hand wheel.
- Operating pad for motorised advance / return.
- Operating pad for motorised cutting • Individual or series cutting.
- Motor drive • Foot switch • Emergency stop

The fully motorised unit offers an even greater comfort than manual microtomes whilst retaining all essential features of this series.

Additional features are:

- Operating pad for motorised advance / return
- Operating pad for motorised cutting
- Individual or series cutting
- Motor drive
- Foot switch
- Emergency stop
