Linen Folding & Inspection Table

LuxMed® Stainless Steel Linen Folding & Inspection Table *is a specialized workstation designed for Central Sterile Supply Department (CSSD) applications. It provides a hygienic, ergonomic, and well-illuminated workspace for inspecting, sorting, folding, assembling, and preparing surgical instruments and hospital linens before packaging and sterilization.*

The integrated dimmable LED inspection light and magnifier provide enhanced visibility for detailed inspection of surgical instruments, linens, drapes, gowns, and sterilization wraps.

Its stainless-steel construction offers excellent corrosion resistance, easy cleaning, and suitability for demanding hospital and CSSD environments.

Key Applications

1. Instrument Quality Inspection
   - *Residual contamination*
   - *Rust or corrosion*
   - *Cracks and surface damage*
   - *Alignment issues*
   - *Dull cutting edges*
   - *Functional condition*

2. Surgical Tray Assembly
   - *Instrument sets*
   - *Surgical trays*
   - *Perforated sterilization trays*
   - *Procedure-specific kits*

3. Linen Inspection & Folding
   - *Surgical drapes*
   - *Surgical gowns*
   - *Linen wrappers*
   - *Sterilization wraps*
   - *Hospital textiles*

4. Packaging & Labeling
   - *Instrument tray wrapping*
   - *Sterilization pouch preparation*
   - *Textile wrapping*
   - *Chemical indicator placement*
   - *Barcode and identification label application*

Key Features

- *High-Grade Stainless-Steel Construction*
- *Available in SS 304 / SS 316 construction*
- *Dimmable LED Illumination for detailed inspection*
- *Magnifier for micro-level visual inspection*
- *Smooth and hygienic working surface*
- *Easy to clean and disinfect*
- *Corrosion-resistant construction*
- *Rounded and smooth edges for improved operator safety*
- *Designed for instrument and linen inspection*

Linen Folding & Inspection Table

Specification

Specification	Details
Model No.	*LM-CSSD-LFIT-01*
Product Name	*Stainless Steel Linen Folding & Inspection Table*
Size (L × W × H)	*2285 × 815 × 950 mm*
Material	*Stainless Steel SS 304 / SS 316*
Lighting	*Dimmable LED Light*
Magnifier	*Included*
Application	*CSSD / Linen Inspection & Folding*

Typical CSSD Workflow

Cleaning → Inspection → Testing → Sorting → Tray Assembly → Linen Folding → Packaging → Labeling → Sterilization

The LuxMed® inspection table supports the inspection, assembly, linen folding, and packaging stages of the CSSD workflow.

Why Choose LuxMed®?

LuxMed® Stainless Steel Linen Folding & Inspection Table *combines a hygienic stainless-steel workstation with dimmable LED illumination and magnification to support accurate inspection and efficient CSSD workflow.*

Key benefits:

- *Hygienic stainless-steel construction*
- *Enhanced inspection visibility*
- *Ergonomic workstation design*
- *Easy cleaning and disinfection*
- *Suitable for instrument and linen inspection*
- *Customizable configuration*
- *Designed for professional CSSD environments*
