SCRUB STATION

Sterile & Touch-Free Hand-Washing Environment

The **LuxMed® Automatic Scrub Sink Station** combines a stainless-steel clinical work surface with automatic controls, sensor-based operation, a deep scrub basin and integrated service/storage space.

The station is designed to support hygienic, hands-free surgical hand washing and scrubbing workflows in hospitals, operation theatres, CSSD departments, medical laboratories and other healthcare environments.

The supplied engineering drawings specify **SS 304 stainless steel**, natural finish, controller, sensor, tap, soap tray and knee mechanism.

Models

01. One-Bay Scrub Sink Station

A compact automatic surgical scrub sink station designed for installations requiring a single scrub.

➤ Key Features

- Automatic / sensor-based operation
- SS 304 stainless-steel construction
- Deep integrated scrub basin
- Digital controller
- Automatic sensor/tap arrangement
- Integrated soap tray
- Knee mechanism
- Smooth and easy-to-maintain surfaces
- Floor-standing cabinet construction
- Hygienic clinical design
- Suitable for operation theatres and healthcare facilities

➤ Technical Specifications

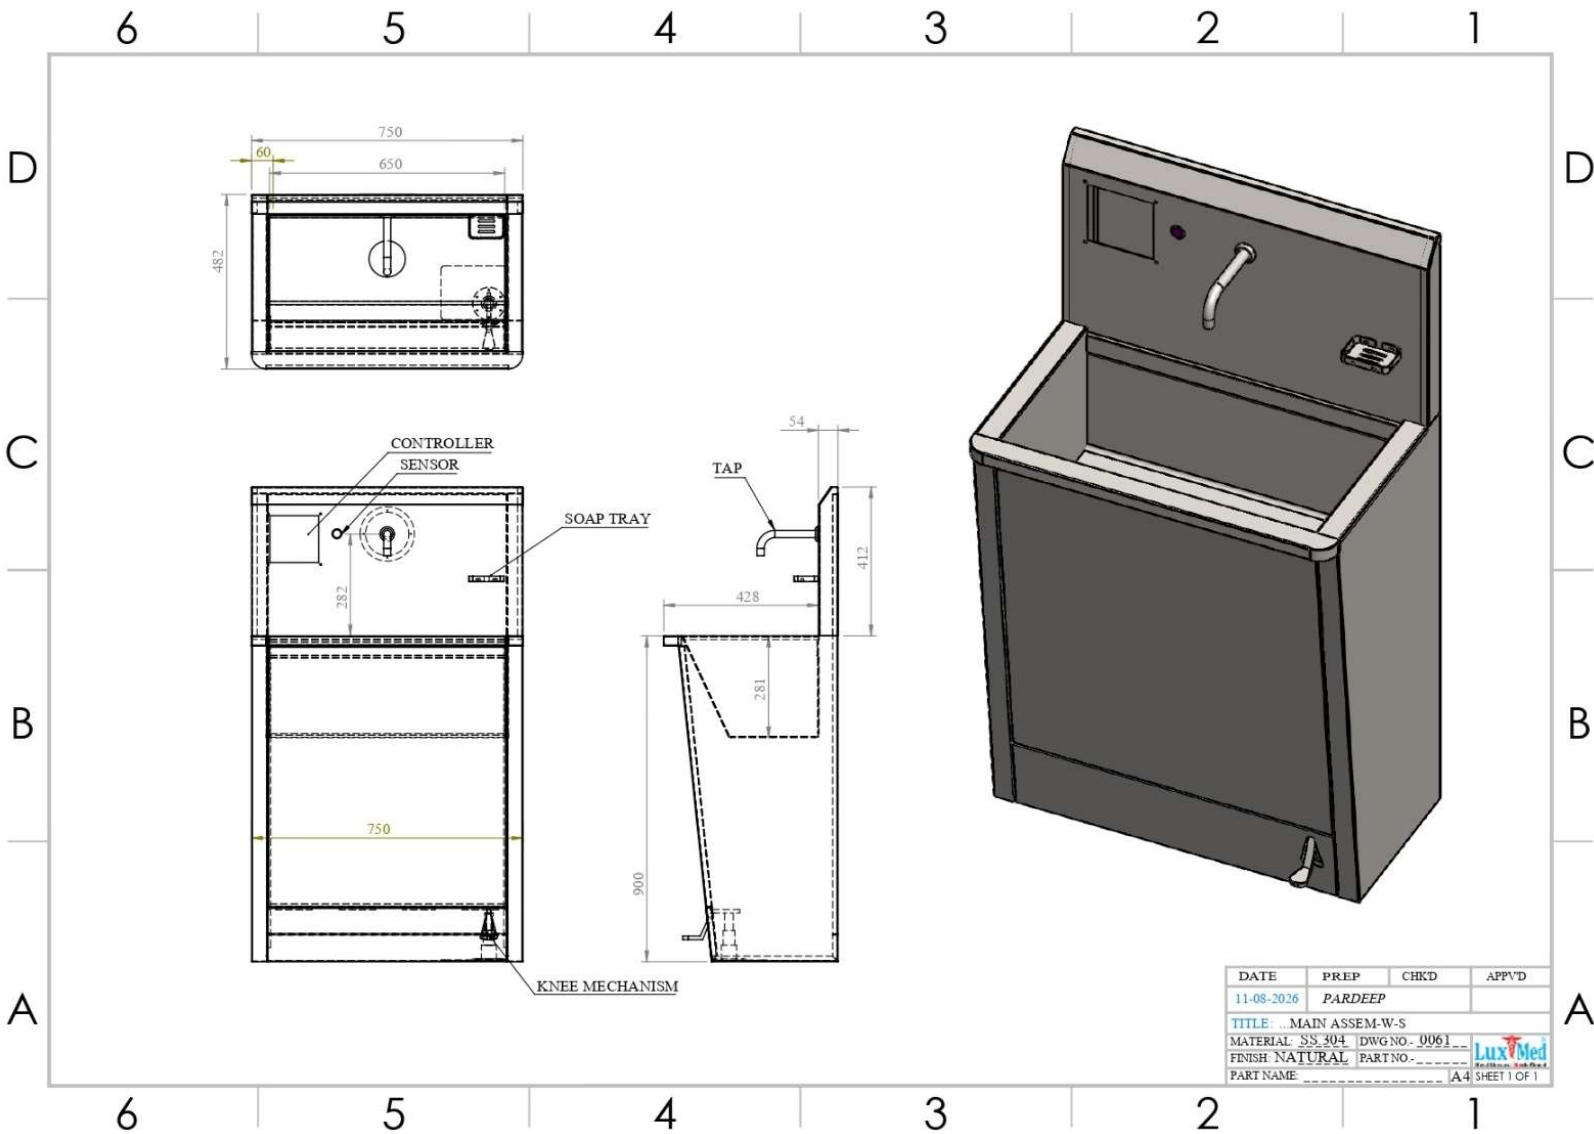

Specification	Details
Configuration	Automatic One
Outer Dimension (WxDxH)	750x482x1312 mm
Basin Dimension	650x281 mm
Material	Stainless Steel 304 (SS 304)
Finish	Natural
Operation / Controls	Controller + Sensor
Tap	1 Tap
Soap Tray	Provided
Knee Mechanism	Provided

SCRUB STATION

Sterile & Touch-Free Hand-Washing Environment

02. Two-Bay Scrub Sink Station

A wider automatic surgical scrub sink station designed for two- workflow and higher clinical usage requirements.

Key Features

- Automatic / sensor-based operation
- SS 304 stainless-steel construction
- Two deep scrub basins
- Digital controllers
- Automatic sensor/tap arrangement
- Integrated soap trays
- Knee mechanism
- Smooth and easy-to-clean surfaces
- Floor-standing cabinet construction
- Hygienic clinical design
- Suitable for operation theatres, CSSD and healthcare facilities

Technical Specifications

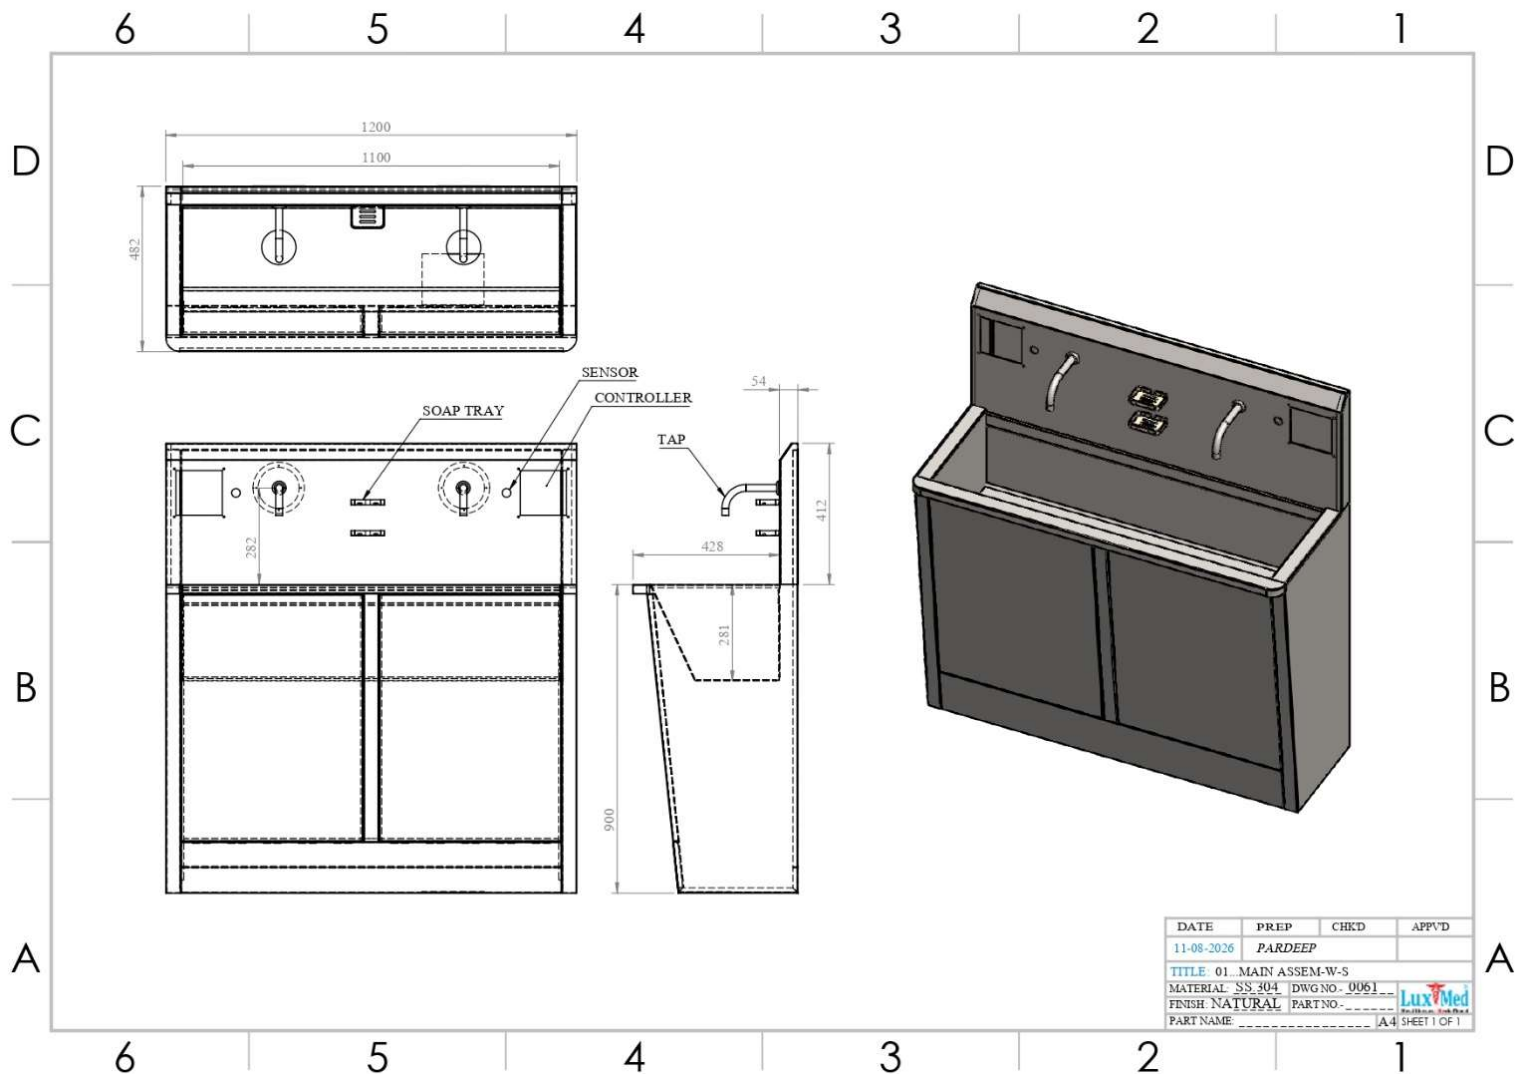

Specification	Details
Configuration	Automatic Two
Outer Dimension (WxDxH)	1200x482x1312 mm
Basin Dimension	1100 × 281 mm
Material	Stainless Steel 304 (SS 304)
Finish	Natural
Operation / Controls	Sensors + Controllers
Taps	2 Taps
Soap Tray	Provided
Knee Mechanism	Provided
